Notes: Property-Damage-Only, Injury, and Total crash numbers are not actual counts, but estimates of the actual counts. The estimates are calculated from data obtained from a nationally representative sample of crashes collected through NHTSA's NASS General Estimates System (GES) and Crash Report Sampling System (CRSS). Injured people are estimates obtained from injured in fatal crashes from the Fatality Analysis Reporting System (FARS), which is a census, and injured in injury crashes from NASS GES/CRSS.

Starting in 2022, people on motorized bicycles are classified as pedalcyclists instead of motorcyclists.
